

Dear Parents/Carers

National Numeracy Challenge – Year 1 Launch Workshop

We are excited to invite you to a special **Maths Workshop** for Year 1 parents, taking place on **Friday 24th October at 2:30pm** here at Oasis Academy Warndon. On the day, please make your way to the breakfast/afterschool club gate (next to the main office), where we look forward to welcoming you.

This workshop will be led by our dedicated **Maths team**, who will be introducing the **National Numeracy Challenge** – a fantastic programme we are taking part in this year. The aim of the challenge is to support parents in building confidence with maths and to help you feel more equipped to support your child's learning at home.

During the session, you'll be given practical ideas and fun activities that you can do with your child to make maths enjoyable and meaningful. As part of the workshop, you'll also receive a **Maths Scrapbook** to take home, which you can use to complete the activities together with your child across the year. Please note: **this is a session for adults only – children do not attend.**

We hope you can join us for this engaging and supportive session. Your involvement makes a real difference in your child's learning journey, and we look forward to working together to make maths fun and accessible for all.

We look forward to meeting with you.

Yours faithfully

Mr Jauncey-Childs and Mrs Aldington
