

National Numeracy Day
Wednesday 20th May 2026

Dear Parents and Carers,

We are delighted to share that on Wednesday 20th May 2026, our school will be joining thousands of others across the UK in celebrating **National Numeracy Day**. This nationwide event is the UK's only annual campaign dedicated to helping children and adults feel more confident with numbers in everyday life.

This year's theme, "**Count on Your Community**", highlights the importance of supporting one another in building confidence with numeracy. The campaign encourages everyone to recognise the vital role numbers play at home, at school, and in the wider community, and to take small, positive steps towards improving number skills

To make the day fun and engaging for our pupils, we would love the children to come to school dressed in a **maths-themed outfit**. You and your child can be as imaginative as you like. Some ideas include:

- Dressing up as a **dice**
- Decorating a T-shirt to look like a **calculator, clock**, or number pattern
- Wearing a **football shirt** with a favourite number
- Or creating **any other maths-inspired costume** of your choice
- Wearing a t-shirt which shows different **numerical patterns, symbols or shapes**

Throughout the day, pupils will take part in activities that highlight the importance of numeracy and help them recognise how numbers are used in everyday life. This supports the national campaign's goal of helping young people build confidence and enjoy engaging with maths.

Please note that there is **no expectation to provide any donation** for your child to take part or dress up for National Numeracy Day.

We look forward to celebrating maths with the children and helping them see that everyone can grow their confidence with numbers. Thank you for your continued support.

Kind regards, **Mrs Aldington and
Mr Jauncey-Childs**
